

Legislative Monitoring

Founded and headquartered just steps from the Statehouse on Ohio's Capitol Square, our team of experienced attorney-lobbyists work to track and report monthly on issue-specific legislation throughout the country for government entities, businesses and trade associations of all sizes. As a founding member of SCG-Legal, with member law firms located in the capitals of all fifty states, Kegler Brown's connections extend well beyond the walls of our Ohio offices. This network provides our clients with high-quality, timely service and the ability to monitor legislation in real time nationwide. This also means that our attorneys have access to the resources they need to monitor legislation at any time and to gain unique insights into those developments in collaboration with local member firms. With this vast pool of resources, our team provides clients with the thorough, well-informed advice they need to make strategic decisions.

Our Services

Our comprehensive legislative monitoring services include:

- + **Issue tracking and monitoring**
- + **Regular reporting and consulting**
- + **Proactive strategic advice**
- + **Executive and legislative branch lobbying**

Our Clients

Our client roster includes public companies, privately held businesses, governments and governmental advocacy organizations, and local and national trade associations.
