

Patent Strategy

Our dedicated patent team of attorneys and paralegals provides comprehensive domestic and foreign patent strategy and consulting services to our clients. We regularly work with independent inventors, universities, and Fortune-rated corporations, providing competitively cost-efficient services.

Our Services

- + **Domestic (U.S.) patent preparation + prosecution:** working with a defined network of allied firms to coordinate representation before the U.S. Patent and Trademark Office in a variety of technologies
- + **PCT/international/foreign patent preparation + prosecution:** working with our network of foreign affiliates to prepare, file and prosecute patent applications before patent offices worldwide
- + **Patent portfolio management:** monitoring and managing large patent portfolios; assisting in maximizing protection, monetization and enforcement opportunities
- + **Education:** training in-house client management teams on how best to identify protectable technologies
- + **Patent mining and forward patenting:** working with technology teams to mine or harvest ideas to gain and sustain a competitive edge
- + **Re-examination practices:** petitioning the USPTO to initiate re-examination proceedings involving patents being enforced against our clients

Our Clients

Whether you are an ambitious inventor with a world-class idea or an attorney managing an IP portfolio for a Fortune 500 company, we lead patent strategy for clients in various industries, including:

- + **Financial institutions**
- + **Auto manufacturers**
- + **Truck component manufacturers**
- + **Universities and colleges**
- + **Space exploration, aeronautics and aerospace research**
- + **Software and IT companies**
- + **Medical device manufacturers**
- + **Consumer products**
