

# Client Endorsements: Tom Hill

“Tom, notably, we have many competent attorneys in California for sure. And over the years we used several. But I can assure you that none measures up to the scope and breadth of your service. Many attorneys are able in specific aspects of litigation, but you have a unique combination of those skills that sets you apart. You have a keen sense of what things mean, a deep understanding and respect for the law, an analytical mind that can go global or get into the detail, the ability to communicate very complex concepts with clarity, and you are a fierce and strategic negotiator. I know that I speak for my brothers when I say that you have never let us down. You have never failed to give us your best and irrespective of the outcome, we have always felt that we have had the best representation.”

Tom, you are a remarkable and gifted attorney and I thought it good, before we get into our next skirmish if there is one, to let you know that you have been a great steward in the world of contracts and litigation and we owe you a great deal. You are as consequential to building our organization and protecting it as any of our employees or any of our partners. If you ever need a recommendation for future clients, please do not hesitate to let me know.”

“Tom Hill knows how to win at trial and how to negotiate a top-dollar settlement. Leveraging long experience and attention to detail, Tom outworked and outwitted our adversary and optimized the value of our claims. The best decision we made was to choose Tom Hill and Steve Barsotti as our trial counsel.”

“Your advice to the parties was superb. When we came to critical junctures where client decisions were required your guidance, and your candor, always lead to correct decisions.”

As such matters go, I thought your fees were extremely reasonable. Litigation is never inexpensive, but I am happy with the fees we paid for the services we received. Although the cost was not small, the value was much greater. Many lawyers might not like to hear this, I think we got a bargain.

Finally, on a personal level we spent a lot of time in the trenches together, sometimes with bullets flying over our heads. You are both consummate gentlemen and professionals and working with you was highly enjoyable.

If I ever have the misfortune to be entangled in litigation you will be the first firm I call. If I can ever serve as a reference for a potential client, please ask them to call me.”
