

Attorney Discipline

We provide counsel to attorneys facing investigations and disciplinary proceedings advising them on all aspects of the disciplinary process, from receipt of a grievance to hearings before the Board of Professional Conduct and the Ohio Supreme Court.

Our Clients

We have assisted attorneys dealing with advertising and commercial issues, issues related to communication problems and lack of diligent client representation, trust account issues, fee splitting and more. We have represented attorneys at all stages of their careers, from new attorneys to senior practitioners, and lawyers from all types of practice areas and practice environments. We are well versed in the Professional Conduct Rules, as well as the Rules for Government of the Bar, including the factors that can aggravate or mitigate a disciplinary issue.
